# MIG WELDER

## SPEEDTEC 200C

## Many Tasks, Many Locations

The SPEEDTEC® 200C represent Lincoln Electric's latest generation of state of the art inverter based single phase compact MIG machines. Lincoln Electric has constructed a fully professional machine packed with features into a small compact housing with a portable low weight. These features make the SPEEDTEC® 200C extremely versatile. It can be used for many di\_erent applications, and easily moved around production facilities or transported to any location e\_ortlessly, and is also suitable for use with motor generators.

#### **Compact and Robust**

· Innovative, portable and lightweight, anyplace, anywhere.

#### Multiple Tasks

· Speedtec 200; CV MIG, CV Synergic, FCAW, Stick, TIG Lift.

#### Power Factor Correction (PFC)

· More welding power, energy and cost savings, generator compatible.

#### **User Friendly Operation**

• Features Lincoln SPEEDSET® the user friendly icon control panel that makes set up easy for experts and beginners. Icon control colour TFT Interface screen.

#### Superior Arc Performance

 CV MIG: In nitely variable control of voltage, wire feed seed and inductance stick: hot start and arc force control TIG: lift TIG avoidstungsten contamination.

#### Built the Lincoln way

· Robust, reliable and professional.

#### Memories

· Store up to 8 of your favourite settings.

Two Year Full Parts and Labour Warranty

#### **Processes**

CV MIG, FCAW, Stick, LIFT TIG

#### **Applications**

Fabrication, Production, Education, Shipbuilding, Construction

#### Output

#### Input

#### Product Number

Speedtec 200C: K14099-2

#### Ready-To-Weld Package includes:

Power source MIG gun Work return lead Stick weld lead Flowmeter Input lead and plug

The SPEEDTEC® 200C is equipped with Power Factor Correction (PFC), a feature which supports high output welding current from a single phase 240V 15A 50/60Hz supply and allows to use a long (up to max 100m) primary extension cable. With electronically designed welding waveforms Lincoln Electric o ers these multi-process units for MIG, Stick or TIG modes.

The SPEEDTEC® 200C is an advanced multi-process model that can be used for CV MIG (Manual and Synergic), CC Stick and DC Lift TIG. It has a large bright (adjustable) colour TFT User Interface that allows easy viewing of welding parameters and easy access to other features and

menu's. The screen uses simple, easy to understand icons rather than traditional text and so instructions and commands are readily understood.

The SPEEDTEC® 200C is ready to tackle many dierent welding applications. The welding performance gives excellent results for Steel, Stainless Steel and Aluminium (using 200mm dia. spools). The SPEEDTEC® 200C works perfectly with mixed gas and 100% CO<sub>2</sub> also with self-shielding wires (Innershield). Supported with the Lincoln Electric professional wire drive system with 37mm diameter rolls.

#### **SPECIFICATIONS**

| Product        | Item<br>Number | Primary<br>Voltage         | Fuse<br>Size  | Weight<br>(kg) | Dimensions<br>HxWxD (mm) | Protection/<br>Insulation Class | Compliance  |
|----------------|----------------|----------------------------|---|----------------|--------------------------|---------------------------------|---|
| Speedtec® 200C | K14099-2       | 240 V/1/50-60Hz<br>(± 10%) | 16A<br>(I <sub>e</sub> =14,7A<br>I <sub>max</sub> =27A) | 17.2           | 396 x 246 x 527          | IP23                            | EN60974-1, EN50199,<br>CE, ROHS, EN6100-3-12<br>AS60974.1 |

CUSTOMER ASSISTANCE POLICY

CUSTOMER ASSIST ANALE POLICY
Lincoln Electric\* business is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric\* for advice or information about their use of our products. We respond to our customers based on the best information in our possession at that time. Lincoln Electric\* is not in a position to warrant or guarantee such advice and to the extent permitted by law assumes no liability, with respect to such information or advice. As a matter of practical consideration, we also cannot assume any responsibility for updating or correcting any such information or advice once it has been given. The provision of information or advice does not create, expand or alter this warranty. Lincoln Electric\* is a responsive manufacturer, but the selection and use of speci c products sold by Lincoln Electric\* is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Electric\* a cet the results obtained in applying this type of fabrication methods and service requirements. Subject to Change — This information is accurate to the best of our knowledge at the time of printing.
