

Why Choose **Accu-Pak**® ?

Accu-Pak® 500 & 1000 lb. **Bulk Package for SuperArc**® MIG Wire

- ▶ **Corrugated Cardboard Pallet** – Fork-lift ready mini-pallet is attached to box for maximum portability and recyclability.
- ▶ **Flow Cone™ Technology** – Steel flow cone on top of wire stack eliminates a waste stream.
- ▶ **Integrated Feeding Hat** – Conduit can be connected directly to box lid.
- ▶ **Stackable** – Decrease required storage space by 50% or more. The 500 lb. stacks up to three high; 1000 lb. is stacks two high.
- ▶ **100% Recyclable** – Reduce waste and environmental impact.
- ▶ **Side View Window** – Increases wire level visibility.
- ▶ **Ideal for Robotic Applications** – Excellent wire placement. Minimize changeover cycles.
- ▶ **Tested and Certified to Meet ASTM Standard D4169-09** – Robust design withstands shipping and lifting with maximum safety performance and consistent wire payoff.
