

# DIGISTEEL -S RANGE

355S · 425S · 505S

# COMPLETE SOLUTION FOR INDUSTRY

## DIGISTEEL -S RANGE

Reliable workhorses are coming. They are as solid as always, more convenient than ever, and superbly productive. These products will help you get more things done. Based on modern inverter technology, now with separate wire feeders. This is another, decisive step into the future of professional welding. With a specially designed, rugged construction, which is subjected to a large variety of tests, they are ready to work in even the most demanding environmental and production conditions. The devices are dedicated especially for heavy-fabrication, structural, transportation, shipbuilding and off-shore industries.

The design of **DIGISTEEL** series is the one that truly stands out. It is ergonomic and efficient in every detail. Various configuration systems, separated wire feeding units, intuitive display interface (7" color TFT), dedicated accessories, and many other features will meet all your industrial welding needs while enhancing your capabilities.

**WF 56D**

INPUT

OUTPUT

OUTPUT

**DIGISTEEL -S RANGE** is a brand new range of SAF-FRO products based on the latest inverter platform, combining modularity, ease of use and optimal **MIG/MAG** or **MMA** welding performance with excellent power cost efficiency.

Three power sources: **355S**, **425S** and **505S** with a choice of separate wire feeders, standard **WF 52D** for basic use, or the advanced **WF 56D** for more demanding applications, helps customer to fulfill every possible welding needs.

All **DIGISTEEL -S** have the option of water cooling by simply adding the new **COOLARC® 26**.

WARRANTY

**CHOOSE SAF-FRO  
FOR COMPLETE SOLUTION  
FOR INDUSTRIAL USERS  
WITH NEW HEAVY DUTY  
DESIGN**

## NEW ERGONOMIC DESIGN

**Simple navigation**  
also when using welding  
gloves

**Practical handle** for effortless gripping  
even with gloves and safe movement of  
the machine

**Cable Management System** (option)  
For easy transportation of the whole  
welding system even with very long  
connection cable

### Heavy duty undercarriage

- Extremely reliable and stable, passed incline stability tests on 15°
- Low gas cylinder entree makes loading very easy
- Quick and easy securing of the shielding gas cylinder

**Power Source water cooled ready**  
(cooler COOLARC® 26  
as option)

**Rotatable wire feeder**  
Swivel on the power source enabling  
rotation of the wire feeder and setting it  
in any position

**Rubber bumpers** protecting feet  
and **4 lifting eyes** for easy hook-in  
and safe transportation

# TRUE RELIABILITY

**Cable connections on front** (in standard) and **back rear side** (in option)  
All cable connections can easily be made without tools

**Practical, big storage locker**  
inside the power source  
with key lock, internal lights, for  
accessories like gun, gloves,  
rolls, contact tips, etc.

**Intermediate hose packages**  
Heavy-duty protective hose  
and military-quality plugs  
Strain reliefs on both ends to keep  
connections well protected  
A wide range of lengths to choose  
(up to 30 m), water or air

**Large wheels** for easily  
effortlessly overcome obstacles  
such as cables or thresholds

Very solid, stable, metal  
made construction

# RELIABLE WORKHORSES

## High duty cycle 420A/100% (425S & 505S)

- High production efficiency
- Digital welding current control
- True HD tested – made for the harsh environmental conditions

## Inverter engine technology – ECO Friendly

- Lower power consumption thanks to high efficiency – energy cost saving
- Automatic power-saving modes (standby/shutdown function)
- Generator ready

## SAF-FRO Industrial design – ready to use anywhere

- Safety class IP23, potted PCBs and no structural plastics
- 3 Year full parts and labor warranty

### Easy maintenance and servicing

Easy access to all components inside  
Software update via laptop or USB (WF 56D)

### Intelligent F.A.N. (Fan As Needed) in the inverter

Variable speed controlled fan (energy-saving)  
Low pollution and quiet fan noise

Cooling tunnel design  
– components arranged to protect against dust and dirt

# OPTIMIZED ERGONOMICS

**Gun Holder:** always at hand, ready to work

**Lifting eye – crane suspension**  
For vertical and suspension operation  
For safe and easy transportation

**Front UI protection cover**  
keep your UI safe

**Professional wire feeding system**  
Four driven wire feed rolls  
Excellent wire feeding on every material  
Permanent internal lights  
Wire inching gas test toggle switch

**Big wheels**  
as standard  
for mobility

**Flowmeter for shielding gas flow setting (option)**  
Precise adjustment directly on site  
Practical especially with long hose packages

**Dust-proof wire spool cover**  
Inspection window indicates level of wire spool  
Simple and comfortable spool change  
New locking system – spool cover stays always closed

**Full access for wire spool installation**

# STATE OF THE ART TECHNOLOGY IN WIRE FEEDING

## Professional wire feeding system – robust and precise

- 4 individually driven rolls for extremely stable wire feeding for various wire types
- Aluminum housing for a long service life
- Big roll diameter (37 mm) for optimal wire feeding
- Simple, tool-free roll change
- Factory-fitted with rolls for 1.0 mm and 1.2 mm steel and stainless steel

**Connection for drum feed** (optional adapter).  
Less need to change wire spools saves time

|                 |           |
|-----------------|-----------|
| Steel           | 3 ÷ 5     |
| Stainless steel |           |
| Braze           |           |
| Flux cored      | 2.5 ÷ 3.5 |
| Aluminium       | 1.5 ÷ 2.5 |

Wire feeder pressure set-up

|           |                 |
|-----------|-----------------|
| 3 ÷ 5     | Steel           |
|           | Stainless steel |
|           | Braze           |
| 2.5 ÷ 3.5 | Flux cored      |
| 1.5 ÷ 2.5 | Aluminium       |

**Individually adjustable contact pressure for the front and rear roll pair**  
Differently set-up for aluminium, steel, stainless steel, braze, flux cored wire

**V-groove**  
for stainless steel, steel

**U-groove**  
for aluminium

**V-groove, knurled**  
for flux cored wire

**Color-coded for wire diameter differentiation**

**New locking system, quick exchange of roll and wire guides**  
Simple, tool-free roll change – just few steps

- 1 Unlock the roll fastener
- 2 Unlock pressure arm
- 3 Exchange the roll

## DESIGNED TO ENHANCED YOUR WELDING CAPABILITY

## INNOVATIVE INTUITIVE INTERFACE

- Two controls, one button for easy navigation
- Icon language for key commands
- Easy process and settings selection
- ARCFX™ – joint visualization
- Work point in material thickness (mm) / WFS / A
- Locking function / Limits / Memories / Jobs
- Interface available in languages: English, German, French, Polish, Finnish, Spanish, Italian, Russian, Dutch, Romanian, Slovakian, Hungarian, Czech, Turkish, Portuguese

# EASY COMMUNICATION

### Auto

#### AUTO-SETTINGS

Preset parameters to increase productivity

#### USB CONNECTIVITY

Easy software update & diagnostics, weld log for quality monitoring

## MORE FUNCTIONS & FEATURES

### NEW

#### SPEAKER

Product operation (adjusting the encoders or pressing the button) and errors signalled by a sound.

### NEW

#### NEW ENCODERS

for more precise adjustment

### NEW

#### CLOCK & CALENDAR

Simple welding quality monitoring as weld log data recording on USB.

7" COLOR DISPLAY!

Simple navigation also when using welding gloves

## STANDARD USER INTERFACE

### User memory programs & welding process change:

- Simple and quick selection by pressing the button of 4 welding programs stored in user memory or 3 welding processes (GMAW, FCAW, SMAW)
- LEDs showing the selected process

# BASIC SETTINGS SIMPLE IN USE

### Quick and easy access to the most commonly used welding parameters:

- **Arc Controls** (depend on the welding program)
- Torch trigger mode **2-step / 4-step**
- Wire Feed Speed Run-in function
- **Burn-back time**

**NEW**

*SYNERGIC  
Capability*

*Welding flowchart for easiest setting of all welding parameters*

# COOLARC® 26

## More functions and features

(Back side view)

**Built-in handle**  
for easy transportation

**Cooler fully controlled by power source:**  
AUTO/ON/OFF for better energy savings and extended service life

**Coolant filter**  
keep coolant clean

**LED lights inside reservoir**  
for better visibility of the coolant level

**Flow sensor inside**  
for gun protection

**Simple Connection and Easy Installation**

## New COOLARC® 26 cooler fully controlled by power source

Cooler Menu is available when cooler is connected

**Settings: 3 Modes of operation available:**

1. AUTO
2. OFF
3. ON

**Filling Procedure**  
step by step detail filling instruction

# LGS2 MIG GUNS

Simple and reliable, this range is adapted to the most common applications.

Wear parts compatible with the most common standard in Europe.

Easy pivoting handle.

Extra-flexible cable.

Extra length rear cable support ensures smooth and consistent wire feeding.

Is the European norm requirement for MIG guns.

**CUSTOMER ASSISTANCE POLICY**

The business of Lincoln Electric is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.

Subject to Change – This information is accurate to the best of our knowledge at the time of printing. Please refer to [www.lincolnelectriceurope.com](http://www.lincolnelectriceurope.com) for any updated information.
