TIG TORCHES

WTT2 range

TIG TORCHES

WTT2

The WTT2 is our new range of standard TIG torches, providing better performance for the welder's comfort. Designed to meet the challenges of a variety of applications in maintenance, fabrication or construction sites. New torches are offered in both air-cooled and water-cooled version.

High quality components and modern design decide about the welding process efficiency and operator's comfort.

The torches are manufactured according to high quality standards. Their expendables are compatible with the international standard.

CUSTOMERS BENEFITS

- ◆ High reliability
- ◆ Standardised wear parts
- ◆ Excellent grip
- ◆ Easy pivoting Handle
- ◆ High flexibility cable
- ◆ Versatility and maneuverability

APPLICATIONS

Fabrication ◆ Construction ◆ Maintenance ◆ Farm ◆ Shops ◆ Home

WTT2 TORCHES

Simple and reliable, this range is adapted to the most common applications.

Extra-flexible high performance cable.

Easy pivoting handle (for EB handles).

Standardised wear parts.

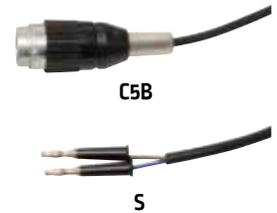

Handle, made with high temperature silicon rubber.

Gas Lens

The gas lens provides a laminar gas flow providing a concentrated shielding of the tungsten electrode allowing an increased stick out. This allows access to restricted joint configurations.

TUNGSTEN ELECTRODES

A complete range of tungsten electrodes:

- Pure tungsten,
- Tungsten + cerium,
- ■ Tungsten + lanthanum,
- ■ Tungsten + rare earths ⁽¹⁾.

Product advantages :

- ◆ Very high life cycle
- ◆ Very stable arc
- ◆ Perfect arc ignition
- ◆ Tip longevity

Choice criteria

Type	Metal		Arc stability	Striking	Lasting	Thermal resistance
	Aluminium	Steel & Stainless steel				
WP - Pure tungsten	*		**	*	*	*
WCe 20 - Cerium 2%		*	**	*	**	**
WLa 15 - Lanthanum 1,5%	**	**	**	**	**	**
WLa 20 - Lanthanum 2%	*	**	**	**	**	**
WS 2 - Rare earths ⁽¹⁾ 2%	*	*	**	**	**	**

CAUTION:
before use, carefully read and understand the safety datasheet available on our websites

*** Excellent - ** Good - * Average

(1) Rare earths = any of the abundant metallic elements, including scandium (atomic number 21), yttrium (39), and the 15 elements from 57 to 71 (lanthanide series include lanthanum and cerium) in the Mendeleev classification.

CUSTOMER ASSISTANCE POLICY

The business of The Lincoln Electric Company® is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.

Subject to Change – This information is accurate to the best of our knowledge at the time of printing. Please refer to www.lincolnelectric.eu for any updated information.
