WELDED TOGETHER

Lincoln Electric Holdings, Inc. is pleased to announce that it has completed the previously announced transaction to acquire Air Liquide Welding, a subsidiary of Air Liquide. The transaction brings together two leading welding and cutting solution providers who are committed to helping customers improve their operations with innovative, productive and high-quality solutions. The acquisition not only offers customers the great brands and products that have come to trust and rely upon in their operations, but broadens available solutions, technologies, and technical application expertise to meet customers' changing needs.

” We are excited to welcome Air Liquide Welding into the Lincoln Electric family. The transaction brings together two talented teams who share the same commitment to welding and cutting innovation and offers customers the industry's most comprehensive portfolio of solutions, technologies and application expertise. ”

*Christopher L. Mapes, Lincoln Electric
Chairman, President and CEO*

CUSTOMER ASSISTANCE POLICY

The business of The Lincoln Electric Company® is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.

Subject to Change – This information is accurate to the best of our knowledge at the time of printing. Please refer to www.lincolnelectric.com for any updated information.
