

# The Value of Hot Plate Weld Pro+

## PLASTICS INJECTION MOLDING SYSTEMS

*The Hot Plate Weld Pro+™ system is designed to produce finished weldments that helps reduce manual labor and optimize capital expenditure. The system automates loading, welding, and unloading with a variety of part-specific tooling. Let's explore the benefits of the Hot Plate Weld Pro+ systems!*

### Integrates to Down-Stream Processes

The systems are able to connect with downstream processes such as insert/assembly, leak/flow testing, marking and packaging.

### Reduced Manual Labor Requirements

Once programmed, the system connects with downstream processes without operator intervention, optimizing productivity.

### Adaptable to the Molding Process

These systems can sync to the molding process, which helps increase production efficiency.

### Fast Lead Time

Standard models are pre-engineered to meet typical fabrication needs, which quickens shipment lead time.

#### CUSTOMER ASSISTANCE POLICY

The business of Lincoln Electric is manufacturing and selling high quality welding equipment, automated welding systems, consumables, cutting equipment and EV charging systems. Our challenge is to meet the needs of our customers, who are experts in their fields, and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or technical information about their use of our products. Our employees respond to inquiries to the best of their ability based on information and specifications provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment, or to provide engineering advice in relation to a specific situation or application. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or communications. Moreover, the provision of such information or technical information does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or technical information, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose or any other equivalent or similar warranty is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the definition of specifications, and the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
