

ENHANCED FREEDOM AND MOBILITY FOR TIG WELDING

Wireless Pedal

Shown:
Wireless Pedal, K4986-1

KEY FEATURES

The Wireless Pedal makes it easier to access hard-to-reach areas. Improve operator mobility, reduce cable clutter, and create a more comfortable and productive TIG welding experience.

- Enhances workplace safety
- LED displays foot pedal battery life, welding output state and signal integrity
- Extension legs that adapt to any angle or surface
- Power cable adapter for 120V service
- Dual-Power Mode™ optimizes communication performance in challenging wireless environments when needed

What Is Included »

Wireless Pedal (K4986-1)

Includes:

- K4987-1 Foot Pedal Requires 3 AA batteries (not included)
- K4988-1 Receiver (with power cable adapter requiring a 115V service, not shown)

Recommended Power Sources »

- Square Wave® TIG 175
- Precision TIG® 225, 275, 375
- Invertec® V205-T, V350 PRO
- Power Wave® C300⁽¹⁾, S350⁽¹⁾⁽²⁾, S500⁽¹⁾⁽²⁾
- Power MIG® 350MP
- Flextec® 350X⁽¹⁾, 500⁽¹⁾, 500P⁽¹⁾, 650
- Aspect® 375

⁽¹⁾ Requires K2909-1 (12-pin to 6-pin Adapter)

⁽²⁾ Requires K3001-2 (S-Series User Interface Kit)
