# The Value of **ANNEX** Robot Positioners

**Choose Your Own Robot** 

ANNEX positioners can be easily

integrated with most major robot

manufacturers including FANUC®,

ABB<sup>®</sup>, Yaskawa<sup>®</sup>, KUKA<sup>®</sup>, and

Kawasaki<sup>®</sup>.

The Lincoln Electric Automation<sup>™</sup> ANNEX<sup>™</sup> robotic positioners are adaptable to a wide range of processes including welding, laser, material handling, grinding and cutting. ANNEX robotic positioners efficiently place the robot into the required position and adapt to a range of tool bed lengths, while providing a large robotic reach envelope.

## **Easy Customization**

ANNEX robotic positioners can be designed to your specifications for length, weight, number of robots, additional axes, and more!

### **High-Precision Motion**

ANNEX robotic positioners are designed to help increase production accuracy, efficiency, and quality compared to mechanized positioners.

#### **Fast Lead Time**

Select ANNEX robotic positioners can be shipped in as little as 6 weeks, providing you with the equipment you need as soon as possible.

#### **Robot Enhancement**

ANNEX robotic positioners expand the work envelope of the robot and allow for more intricate manufacturing that was previously only achievable with manual processes.

#### CUSTOMER ASSISTANCE POLICY

The business of Lincoln Electric is manufacturing and selling high quality welding equipment, automated welding systems, consumables, and cutting equipment. Our challenge is to meet the needs of our customers, who are experts in their fields, and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or technical information about their use of our products. Our employees respond to inquiries to the best of their ability based on information and specifications provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment, or to provide engineering advice in relation to a specific situation or application. Accordingly, Lincoln Electric does not warrant or guarante or assume any liability with respect to such information or technical information or technical information, or all real any warranty on our products. Any express or implied warranty that might arise from the information or technical information or technical information or similar warranty or similar warranty of merchantability or any warranty of fitness for any customers' particular purpose or any other equivalent or similar warranty is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the definition of specifications, and the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
