

# The Value of TORCHMATE

## CNC PLASMA CUTTING SYSTEMS

Are you struggling to keep up with demand, short on skilled labor, or spending too much time cutting parts by hand? As jobs get more complex and customers expect faster turnaround, investing in a Torchmate® can help you cut more accurately, work more efficiently, and **increase your productivity.**

Lincoln Electric Automation™ has a modernized, game-changing solution with Torchmate CNC cutting systems!

### Support, Training, & Warranty

Backed by Lincoln Electric's industry-leading service, the system includes a 2-year machine warranty and 3-year power-supply warranty, with extended plans available. Users also gain access to multiple Torchmate training options.

### Modern, Intelligent Software

Torchmate CAD/CAM 10 provide a complete design-to-cut workflow directly on the machine. Features include pre-loaded cut charts, irregular/multi-sheet nesting, hole optimization, text wrapping, and raster-to-vector conversion.

### Cost-Effective

Consumable designs help keep costs down, while durable frame construction, precision drive components, and water-table fume extraction help minimize mechanical wear and extend the overall life of the machine.

### Single-Source Solution

Every major component: the table, torch, plasma power supply, motion control and height control system, CAD/CAM software, and Plateguard™ rust inhibitor are engineered by Lincoln Electric® to work seamlessly together. This eliminates multi-vendor complexity and improves reliability.

### Start Cutting Fast

Tables ship fully assembled with all operational components installed, including touchscreen HMI, controller, water table, and torch breakaway system. With required electrical and air connections in place, the system can be cutting parts within half an hour.

### Cut Quality, Speed, & Efficiency

FlexCut® plasma systems deliver fast cut speeds, clean edges, and little to no dross. Combined with advanced arc-voltage height control, ohmic sensing, and precision linear motion, Torchmate achieves consistent, repeatable cuts across a wide range of materials and thicknesses.

#### CUSTOMER ASSISTANCE POLICY

The business of Lincoln Electric is manufacturing and selling high quality welding equipment, automated welding systems, consumables, cutting equipment and EV charging systems. Our challenge is to meet the needs of our customers, who are experts in their fields, and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or technical information about their use of our products. Our employees respond to inquiries to the best of their ability based on information and specifications provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment, or to provide engineering advice in relation to a specific situation or application. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or communications. Moreover, the provision of such information or technical information does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or technical information, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose or any other equivalent or similar warranty is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the definition of specifications, and the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
