

EXCALIBUR

## BUILT FOR THE WAY YOU WELD.

Excalibur® 7018 MR®

Our improved product has a new flexible coating that stays intact in the container and in use. The product produces a low hydrogen deposit even when exposed to high humidity. Starting is improved to eliminate porosity. Give the product a try and we think you'll be pleasantly surprised to immediately see the benefits we've built in, because **we built them for you.**

- » Improved coating integrity
- » Extreme bendability
- » 60% less moisture pickup vs. competition
- » Reduction of arc starting porosity
- » Clear puddle and a smooth arc
