

CORELINC™

Wireless Remote Control

LESS WALKING. MORE WELDING.

The CoreLinc Wireless Remote is a tough, battery-powered remote that gives workers the ability to control their machine from a distance. It's designed to work with Lincoln Electric's Flextec®, Frontier®, and Vantage® welding power sources, making it a great tool for outdoor and industrial jobs.

With a simple interface, strong wireless signal, and long battery life, it helps boost productivity and safety on the job.

KEY FEATURES

Wireless Control – Turn the machine output on/off and adjust welding settings from up to 350 feet away. Uses the 915MHz communication frequency band.

Durable – Built for outdoor use with a rugged design that's easy to carry.

Long Battery Life – Up to 4,000hrs of battery life using 3x AA batteries.

Easy to Use – Adjust setpoints in increments of 1%, 3%, or 5%. Digital display with straightforward controls.

Compatible – Plug and play functionality. Automatic channel selection to adapt to high density of machines. Works with machines that use a 12-pin Amphenol connector.

Affordable – A cost-effective way to add wireless control to your welding machine.

Corelinc Replacement Items »

- Replacement Receiver
- Replacement Transmitter
- 12-pin Extension Cable
- Screen Protector

Parameter Adjustments »

- Wire Feed Speed
- Current
- Voltage
- Output

Power Sources* »

- Frontier
- Vantage
- Flextec Series X

*Machine must have 12-pin accessory connector

PRODUCT SPECIFICATIONS

Product Number	Description	Dimensions HxWxL in (mm)	Weight lbs (kg)
K5728-1	CoreLinc Wireless Remote and Transmitter	5.70 x 3.35 x 1.60 (145 x 85 x 41)	0.85 (0.39)

CORELINC ACCESSORIES

For best welding results with Lincoln Electric equipment, always use Lincoln Electric consumables. Visit www.lincolnelectric.com for more details.

Manufactured at a facility with certified ISO Quality and Environmental Management Systems.

CUSTOMER ASSISTANCE POLICY

The business of Lincoln Electric is manufacturing and selling high quality welding equipment, automated welding systems, consumables, cutting equipment and EV charging systems. Our challenge is to meet the needs of our customers, who are experts in their fields, and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or technical information about their use of our products. Our employees respond to inquiries to the best of their ability based on information and specifications provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment, or to provide engineering advice in relation to a specific situation or application. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or communications. Moreover, the provision of such information or technical information does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or technical information, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose or any other equivalent or similar warranty is specifically disclaimed. Lincoln Electric is a responsive manufacturer, but the definition of specifications, and the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
