

The Value of Prism Compact

Weld Fume Control for Automation

At Lincoln Electric®, we understand the high importance of fume control to a safe and healthy welding environment. We design, manufacture, and install our own fume control equipment to provide superior solutions for your welding and cutting processes!

Prism Compact with Exhaust Hood

Lincoln Electric Total Solution

Weld fume control is a critical component of the welding process and helps you be OSHA-compliant. Ask The Welding Experts here at Lincoln Electric about weld fume control early in any welding project.

Prism® Compact with Exhaust Hood

The system comes in multiple hood sizes and mounting configurations. Includes standard MERV 16 filters with automatic filter cleaning controls and duct.

Prism® Compact with Thermal Suppression

This model includes spark arrestors and a fire suppression system that helps reduce the risk of a thermal event during welding or plasma cutting. This model is FM-approved and UL-listed.

Before & After Care

We help you design a weld fume system based on your plant layout, install the system on-site, and offer complimentary filter replacement service.

Prism Compact with Thermal Suppression

CUSTOMER ASSISTANCE POLICY

The business of Lincoln Electric is manufacturing and selling high quality welding equipment, automated welding systems, consumables, and cutting equipment. Our challenge is to meet the needs of our customers, who are experts in their fields, and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or technical information about their use of our products. Our employees respond to inquiries to the best of their ability based on information and specifications provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment, or to provide engineering advice in relation to a specific situation or application. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or communications. Moreover, the provision of such information or technical information does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or technical information, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose or any other equivalent or similar warranty is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the definition of specifications, and the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
