

# The Value of Preventative Maintenance

## LINCOLN ELECTRIC AUTOMATION SERVICE & SUPPORT

*Lincoln Electric Automation's service team is your trusted partner for maintenance support to help increase system durability, detect potential failures before they happen, and reduce the risk of costly unplanned system downtime. Our expertly trained service technicians can deliver high-quality, thorough preventative maintenance of your system following our comprehensive 50+ point checklist.*

### Increased System Return on Investment

Lincoln Electric Automation's service team helps you extend the life of your system with regular preventative maintenance.

### Industry-Leading Service & Expertise

Known as The Welding Experts® for over 125 years, Lincoln Electric provides a full circle of design, product delivery, and customer service. Expertly trained service technicians are available to make recommendations regarding the health of your machine.

### Decreased Downtime

Minimize your frustration and unexpected costs associated with unplanned system downtime. Lincoln Electric Automation's service team will help you plan preventative maintenance around your schedule.

### Peace of Mind

Recommended preventative maintenance can provide a renewed sense of confidence that your system will operate more efficiently.

### Safety

During a preventative maintenance visit, Lincoln Electric Automation service technicians inspect your system's safety components to confirm they are operating as intended.

#### CUSTOMER ASSISTANCE POLICY

The business of Lincoln Electric is manufacturing and selling high quality welding equipment, automated welding systems, consumables, and cutting equipment. Our challenge is to meet the needs of our customers, who are experts in their fields, and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or technical information about their use of our products. Our employees respond to inquiries to the best of their ability based on information and specifications provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment, or to provide engineering advice in relation to a specific situation or application. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or communications. Moreover, the provision of such information or technical information does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or technical information, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose or any other equivalent or similar warranty is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the definition of specifications, and the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
