

We Make Big Parts in Less Time

North America's Largest 3D Metal Printing Factory for Large Parts

Lincoln Electric's 3D metal printing solution is ideal for high-mix, low-volume applications, and capable of printing parts over 10 ft. (3 m) in length and weighing in excess of 22,000 lbs. (10,000 kg). This innovative technology significantly reduces manufacturing lead times, shortens supply chains, and enables design enhancements that exceed traditional fabrication capabilities.

- Approximate build envelope 10 x 10 x 7 ft (3 x 3 x 2.1 m)
- Individual builds can be welded together for unlimited part size

Alloys We 3D Print:

Carbon Steel	Stainless Steel	Nickel Alloys	Copper
Low-Carbon Steel High-Strength Low – Alloy Steel	316LSi Stainless Steel 410NiMo Stainless Steel 17-4 PH Stainless Steel	Inconel 617 Inconel 625 Inconel 718 Invar 36	CuNi 70/30 Nickel Aluminum Bronze

Fast Turnaround—Parts Often Delivered Within Weeks

- Twenty-two 3D printing systems operating 24/7
- Large inventory of wire feedstock in a range of alloys
- Rapid robot programming using our proprietary SculptPrint™ OS software

ISO 9001 Certified and ITAR Registered - Quality, Compliance, and Security

Customer Assistance Policy

The business of Lincoln Electric is manufacturing and selling high quality welding equipment, automated welding systems, consumables, cutting equipment and EV charging systems. Our challenge is to meet the needs of our customers, who are experts in their fields, and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or technical information about their use of our products. Our employees respond to inquiries to the best of their ability based on information and specifications provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment, or to provide engineering advice in relation to a specific situation or application. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or communications. Moreover, the provision of such information or technical information does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or technical information, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose or any other equivalent or similar warranty is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the definition of specifications, and the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
