

SERVING SOUTH AFRICA FOR OVER 60 YEARS

The Harris Products Group was formed by combining two strong names in the gas apparatus business – Harris Calorific and J.W. Harris. The Harris Products Group is a world leader in metalworking products used in the brazing, soldering, welding, cutting and gas distribution industries.

Harris began ambitiously expanding around the world to metalworking industry-leading nations like South Africa in the 1960s, 1970s and 1980s. Since then, Harris Calorific has acquired other strategic partners, and in 2005, they officially became The Harris Products Group.

The Harris Products Group is a wholly-owned subsidiary of The Lincoln Electric Company. Lincoln has 45 manufacturing locations, including operations and joint ventures in 20 countries and a worldwide network of distributors and sales offices covering more than 160 countries. The combined company offers excellence in the manufacture of:

- Gas welding and cutting equipment
- Industrial and specialty gas regulation equipment
- Gas distribution systems
- Brazing and soldering alloys
- Welding alloys
- Pre-formed bends, rings and return bends

1889

John Harris, founder, invents the first flame-cutting torch.

1904

Harris exhibits his invention at the World's Fair in St. Louis, Missouri (USA).

1926

Harris Calorific was purchased by the U.S. Welding Co. of Minnesota, and it became a part of Emerson Electric Co. in 1973.

1990

Lincoln Electric purchased Harris Calorific from Emerson Electric.

2005

Lincoln purchased the privately-held J.W. Harris Company.

2012

The Harris Products Group expands distribution networks throughout South Africa to help build this nation.

1960-1980's
Both Harris companies expand to South Africa and around the world.

1914

Joseph W. Harris founded the J.W. Harris Company, specializing in the distribution and repair of specialized parts for automotive and farm vehicles. The company later expanded into welding alloys and accessories.

1905

John Harris establishes The Harris Calorific Company. Harris continued to refine its gas torches and started manufacturing related accessories, including gas pressure regulators.

**HARRIS PRODUCTS...
THE METALWORKING
TOOLS NEEDED TO
MOVE THIS NATION
FORWARD.**

BUILDING A NATION TOGETHER

Across every industry, Harris has the tools you need. South Africa has emerged as a global powerhouse, and Harris is committed to help building this nation with the safest, most durable equipment. Industries we support:

- Mining
- Petrochemical
- Heavy Industrial
- Railroad
- Auto assembly industries
- And others

By expanding our distribution network and creating easier access to quality products, we hope to foster growth in your industry and this economy.

SHOW YOUR PRIDE

For more than 60 years South African metalworking professionals have relied on Harris for the durability and safety of the entire product line including:

- Welding and cutting torches and accessories
- Industrial-duty gas regulation equipment
- Manifolds and flow control equipment
- Soldering alloys and equipment

Now, Harris has expanded its distribution throughout South Africa to give these hard-working professionals better access to the name they have grown to trust, Harris.

CARRY THE BEST

To ensure South Africa has access to the highest quality gas equipment, Harris products are manufactured in EU and the United States in ISO 9001 and 14001 certified facilities.

For example, the manufacturing plant in Dzierzonow, Poland, which opened in 2006, is the most modern gas apparatus plant in the world today. Products are manufactured by skilled craftsman using state-of-art technology, with a focus on quality and product testing to provide customers with the best and most reliable equipment.

Every Harris product is 100% tested, 100% of the time, for consistency and precision. We are committed to delivering the highest quality equipment to South Africa, so your nation carries the best.
