

# EPA Tier 4 Final Diesel Welder Price Increases are Coming in 2013!

Engine redesigns will result in welder  
price increases of up to **50%**  
as 2013 engines must comply with  
**90%** reduction of particulate emissions.

Impacts **ALL** diesel engines over 25 HP for use in the U.S.; Canada is following the EPA guidelines.

## ACT NOW!

- Beat the HUGE anticipated price increases!
- Order early in 2012 to beat the industry rush expected later in the year.
- Move your planned 2013 engine welder purchases into 2012.
- Lincoln Electric is prepared to respond to your needs.
