Salesforce Developer
Choose Lincoln Electric!

Lincoln Electric is the world leader in the engineering, design, and manufacturing of advanced arc welding solutions, automated joining, assembly and cutting systems, plasma and oxy-fuel cutting equipment, and has a leading global position in brazing and soldering alloys. Lincoln is recognized as the Welding Expert™ for its leading material science, software development, automation engineering, and application expertise, which advance customers' fabrication capabilities to help them build a better world. Headquartered in Cleveland, Ohio, Lincoln has 56 manufacturing locations in 19 countries and a worldwide network of distributors and sales offices serving customers in over 160 countries.

YOU ARE

- Proficiency with Salesforce.com development including modification of standard objects and fields and creation of custom objects and fields
- Experience with Apex, Visualforce and the Lightning Component Framework.
- 3+ years' experience with Force.com developer toolkit - Apex, VisualForce, Lightning Components (Aura), Lightning Web Components, Visual Studio Code, Salesforce CLI (sfdx), Rest/SOAP Web Services and Metadata APIs

WE OFFER

- Work with other members of the Corporate Salesforce team to implement customer-based solutions and develop applications on the Force.com and Lightning platform using Apex, Visual Force, Lightning Components (Aura), and Lightning Web Components.
- Develop, implement and maintain Salesforce customizations, applications, extensions and integration.
- Provide technical documentation as required for development work completed.
- Create testing and implementations plans, including user training and documentation.
