

# TIG Foot Pedal

## MACHINE COMPATIBILITY LIST

### LINCOLN ELECTRIC Part Number : K4361-1

This foot pedal controls the amperage when TIG welding. Depress pedal to increase current. Depressing pedal fully achieves maximum set current. Fully raising the pedal finishes the weld and starts the post-flow gas cycle. This foot pedal will provide the optimum amperage needed for any TIG welding project.

*Compatible machines feature a circular 8 pin connector.*

*Foot pedal with attached 13 foot cable with a circular 8 pin connector.*

#### Ordering information

Part No.: K4361-1

Each UPC Code: 015082832982

**Ships one TIG foot pedal in a box**

### COMPATIBLE WITH THE FOLLOWING MACHINES

**WELD-PAK®**  
**180i MP DV**  
Part No.: K5257-1

**LE31MP®**  
Part No.: K3461-1

**POWER MIG®**  
**140 MP®**  
Part No.: K4498-1

**MIG-PAK®**  
**180 MP®**  
Part No.: K5331-1

**MIG-PAK®**  
**140 MP®**  
Part No.: K3821-1

**866-236-0044**
