HARRIS® MULTI-PURPOSE MICRO TORCH & SOLDERING IRON

MODEL SHOWN:
14

DESCRIPTION

The Harris Model 14 is a simple and safe multi-purpose micro torch and soldering iron designed for a variety of uses such as heat shrinking, small soldering, jewelry repair and crafts. The torch features a Piezo electric ignition system for automatic lighting. Its 25 watt heat source utilizes clean burning butane gas from disposable cylinders (sold separately) that can reach a maximum flame temperature of 3200° F. The torch features a trigger, on/off safety latch, a hot air blower and a removable hands free stand. It comes equipped with a detachable soldering iron making this a multi-use tool.

Shown with soldering tip installed
