

The Value of eCell

Robotic Welding Systems

The eCell™ systems are engineered to be cost-effective robotic welding systems with a small footprint. These robotic welding systems are ideal for job-shop environments, contract manufacturers, and first-time automation users due to minimal programming requirements. Let's explore the benefits of the eCell systems!

Economical Design

The eCell systems operate in a small footprint using a single base platform. These pre-engineered systems are user-friendly and compatible with other Lincoln Electric Automation systems to streamline your production.

Safety

Each Lincoln Electric Automation site is A3 robotic certified. We deliver robotic products and services that are safe, reliable, of good quality, as well as meeting current certification expectations of ISO 10218 PART 2 (ANSI/RIA).

Training Options

Lincoln Electric Automation offers in-person and virtual robotic automation training classes to help you operate your eCell systems. In-person classes have a 2:1 student-to-robot ratio.

Fast Lead Time with Accelerated Onboarding

Most eCell standard systems have one-to-four week lead times. eCell systems can be up and running in one day.

CUSTOMER ASSISTANCE POLICY

The business of Lincoln Electric is manufacturing and selling high quality welding equipment, automated welding systems, consumables, and cutting equipment. Our challenge is to meet the needs of our customers, who are experts in their fields, and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or technical information about their use of our products. Our employees respond to inquiries to the best of their ability based on information and specifications provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment, or to provide engineering advice in relation to a specific situation or application. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or communications. Moreover, the provision of such information or technical information does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or technical information, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose or any other equivalent or similar warranty is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the definition of specifications, and the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
