

# The Ideal Setup for Pipe & Vessel Fabrication

From concept to reality, the PIPEFAB<sup>™</sup> welding system was developed for one purpose – to deliver the ideal setup for pipe and vessel fabrication. From machine design to arc performance, no detail was overlooked in delivering a complete, customer-driven system that lets your shop focus on what matters most – making high-quality root-to-cap welds, faster and easier.

## **Game-Changing Performance and Simplicity**

## Breakthrough Arc Performance

» From root, to cap, to final fit – the PIPEFAB<sup>™</sup> system has you covered with weld modes that have been fine-tuned to deliver breakthrough arc performance specifically for pipe and vessel fabrication.

## Straightforward & Simple

» Developed to be the fastest, smartest, and easiest solution on the market, the PIPEFAB<sup>™</sup> system delivers straightforward and simple digital control with one-click process selection.

## Industry-Driven Design

» Like the name says, the PIPEFAB<sup>™</sup> system was developed specifically for pipe and vessel fabrication. With its Readyto-Run<sup>™</sup> design, every detail was considered in creating the ultimate setup for the pipe and vessel industry.

## Trusted Expertise & Support

» Whatever challenge you may have, wherever in the world it may be, Lincoln Electric is here to help with proven industry knowledge and support.

#### Processes »

Stick, TIG (HF & TouchStart® TIG), MIG, STT® MIG, Pulsed MIG, Flux-Cored, HyperFill™

#### Applications »

Pipe & Vessel Process Pipe

#### Output »

#### Product Number »

## Fine-Tuned Performance for Pipe & Vessel

### STT<sup>®</sup> – Better Than Ever.

Our patented STT<sup>®</sup> (Surface Tension Transfer<sup>®</sup>) process was the original open-root MIG (modified short-circuit) solution to hit the market. After decades of leading the industry, we've taken the performance of this iconic process to the next level – making it better than ever.

- Breakthrough travel speeds
- Industry-leading arc stability
- No sense lead

#### Smart Pulse<sup>™</sup> - Pulse Tailored For Pipe

Smart Pulse<sup>™</sup> delivers an innovative solution for pulse welding simplicity and performance. Utilizing Waveform Control Technology<sup>®</sup>, Smart Pulse<sup>™</sup> monitors your machine settings and automatically tailors the pulse to deliver the ideal arc for your pipe welding needs.

- Set a low WFS for out-of-position pipe welding Smart Pulse™ auto-adjusts for a narrow, focused arc
- Set a high WFS for 1G pipe welding Smart Pulse<sup>™</sup> auto-adjusts for a wide, soft arc
- Less time adjusting means more time welding

#### **Processes Optimized For Your Needs**

The PIPEFAB<sup>™</sup> system comes fully loaded with weld modes optimized specifically for pipe and vessel fabrication. All processes - Stick, MIG, TIG and FCAW - have been fine-tuned for maximum performance with the industry's common, filler metal, wire diameters and gas mixtures.

- · Stick modes optimized for cellulosic and low hydrogen electrodes
- MIG modes optimized for 1.0 mm & 1.2 mm steel, stainless steel and metal-cored
- MIG modes optimized for simplicity (Smart Pulse™) and fume management (Low Fume Pulse™)
- Flux-cored modes optimized for 1.2 mm, 1.4 mm, 1.6 mm
- HyperFill<sup>™</sup> modes optimized for filling passes.

\*Results based on root pass comparison with 0.9 mm wire and Argon shielding gas mix.

#### HYPERFILL™

## The Next Generation of Simplicity & Control

#### **Display Designed with Purpose**

The PIPEFAB<sup>™</sup> system's display was designed, evaluated, and tested to deliver one thing - machine interaction that is as simple as possible.

### Weld More, Worry Less

The PIPEFAB<sup>™</sup> system helps maximize arc time and allow operators of all skill levels to focus more on making great welds.

- One-button process changes
- Straightforward, easy-to-understand navigation
- Memory buttons for preferred settings
- ArcFX<sup>®</sup> Technology for visual arc settings feedback
- Single point of use all controls in one location on the feeder
- Multilingual options for true global compatibility.

### **Intelligence Built In**

All PIPEFAB<sup>™</sup> systems come ready to connect to powerful, yet simple-to-use software for configuration, updates and weld data monitoring.

- Remote diagnostics & configuration
- Free and easy software updates never worry about swapping or storing memory cards.
- CheckPoint<sup>®</sup> Production Monitoring

PIPEFAB™ process configuration screen with ArcFX® Technology

## Industry-Driven Design for Industry Demands

## Always Ready-To-Run<sup>™</sup>

The PIPEFAB<sup>™</sup> system's Ready-to-Run<sup>™</sup> design keeps all process outputs electrically isolated and ready to weld when needed – meaning you'll never have to swap cables to change processes again.

## Flexibility to Tackle any Challenge

Dedicated process outputs and remote pendant connections give the PIPEFAB<sup>™</sup> system a wide range of application flexibility. Embedded PowerConnect® Technology allows for input power flexibility from 200V - 600V.

- PowerConnect<sup>®</sup> Technology 200v-600v input, just power it . up and weld
- Reliable and consistent arc performance no matter what input • voltage is used

Flux-Cored

Processes

#### Capabilities

### **Attention to Detail**

From packaging to gun organization, The PIPEFAB<sup>™</sup> system's Ready-to-Run<sup>™</sup> design was developed with complete focus on the operator and the shop floor environment for ultimate simplicity.

- Cable hooks for organized gun and cable management
- Tilting gas bottle tray (for easy gas bottle loading)
- Quick access side panels
- Ready-Pak<sup>®</sup> comes assembled and ready to weld in minutes

## Cable View<sup>™</sup> Technology

Powered by patented Cable View<sup>™</sup> Technology, the PIPEFAB<sup>™</sup> system continually monitors cable inductance and adjusts the waveform to maintain consistent arc performance with long or coiled cable runs up to 20 m (or inductance levels up to 45 µH).

- Consistent arc performance with no sense lead, even in long or coiled cable runs
- Warning notification if inductance is outside of performance threshold

## Trusted Industry Support

#### Industry Pioneers Who Know Pipe

High-quality products and great customer service are important aspects of the Lincoln Electric story, but it's our unmatched welding expertise, from the pipeshop to the field, that truly sets us apart. If there's a better way for you to weld, we'll help you find it.

### **Global Support**

With a worldwide network of distributor and sales offices reaching over 160 countries, and 36 global technical application facilities, Lincoln Electric can provide trusted global support you can count on.

#### **Pipe Diameter Inches per Day**

Lincoln Electric knows it's all about maximizing the amount of pipe diameter inches you can weld per day, per welder. That's why we are here as a trusted partner, working together to help take your welding productivity and quality to the next level.

#### **KEY CONTROLS**

- **1.** PIPEFAB Feeder Dual-Head Feeder
- 2. User Interface / Controls
- 3. Power Source ON/OFF & Connection Status
- 4. TIG Remote, 12-Pin Connection and Sense Lead Connection (if required)
- 5. Dedicated TIG Torch Connection (Twist Mate<sup>™</sup>)
- 6. Work Lead Connection
- 7. Stick Connection
- 8. Cable / Torch Hanger
- 9. Heavy-Duty Wire Reel Stand
- **10.** Tilting Bottle Rack
- 11. Optional Water Cooler (K3737-1)

#### **KEY CONTROLS (UI)**

- 12. Large, Easy-to-Read Text
- 13. Wire Feed Speed
- 14. 7 in. IP67 High-Resolution Display
- **15.** One-Click Process Selection
- 16. Navigation / Select
- 17. Gun Trigger Connection
- 18. USB Port
- 19. Volts/Trim
- 20. Memory Selection
- 21. Feed Head Toggle

## What's Included

The PIPEFAB™ CE Ready-Pak<sup>®</sup> comes assembled, shipped on a pallet and ready to weld in minutes. Torches, welding wire and shielding gas must be ordered separately.

### PIPEFAB<sup>™</sup> Ready-Pak: K14283-1

- · PIPEFAB<sup>™</sup> Power Source
- PIPEFAB<sup>™</sup> Feeder
- PIPEFAB<sup>™</sup> Cart & Dual Bottle Rack
- PIPEFAB<sup>™</sup> Cooler
- Wire reel enclosure kit (Qty 2)
- Fast mate gun adapter (Qty 2)
- Tig adapter (Qty 1)
- 1.2mm V Groove Drive Roll Kits (4 Roll Kit Qty 2)
- 1.2mm Knurled Drive Roll Kit (4 Roll Kit Qty 1)
- Cable / Torch Hanger (Qty 4)
- Water hose kit
- Water kit connexion
- Brass Inlet Gas Y Fitting
- 10 meters Work Lead & GC500 Clamp
- · PIPEFAB <sup>™</sup> Feeder Screen Protector (optional use)

#### **GENERAL OPTIONS**

#### Foot Amptrol™

Provides 25 ft. (7.6 m) of remote output control for TIG welding. (12-pin plug connection). Order K870-2

#### PIPEFAB<sup>™</sup> Feeder Lfit Bail Insulated Lift Bail Order K1555-1

#### **PIPEFAB™** Remote Interface

Rugged remote that provides full PIPEFAB<sup>™</sup> control up to 25 ft. (7.6 m) from the power source. Duplicates all PIPEFAB<sup>™</sup> user interface displays with controls including WFS, volts/trim, process selection, memory selection, feed head toggle, cold feed and gas purging. **Order K3738-1** 

#### Remote Gun Trigger Switch

Allows for initialization of the arc in wire fed hard automation applications **Order K4716-1** 

PIPEFAB™ Water Cooler Order K3737-1

#### PIPEFAB<sup>™</sup> Feeder Caster Kit

Convert wire reel base to feeder undercarriage. **Order K4728-1** 

#### Hand Amptrol Rotary Track Style, 12-pin Amphenol (25 ft) Remote current control for TIG welding

Order K963-4

PIPEFAB<sup>™</sup> Feeder Screen Protector Order KP4735-1

#### CUSTOMER ASSISTANCE POLICY

The business of The Lincoln Electric Company® is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
