The diagram illustrates the connection of the ANYBUS module to the PCB L16616. The PCB is labeled "PCB L16616" and "L16616-1". The ANYBUS module is labeled "ANYBUS MODULE". The connection points are as follows:

- J1:** A 10-pin connector on the PCB. The pin connections are: 208A to 206A, 207A to 205A, 208 to 275, 207 to 206, and 205 to 205.
- X1:** A 4-pin connector. The pin connections are: 206 to 205, 208 to 207, and 207 to 207.
- X2:** A 10-pin connector. The pin connections are: 206A to 206A, 207A to 207A, 208 to 208, 207 to 207, and 205 to 205.
- RF1:** A radio frequency component connected to the PCB and X1.

The following table shows the pin connections for X1 and X2:

Pin	Wire address
A	207A
B	208A
C	-
D	-
E	-
F	275
G	-
H	-
J	208A
K	206A
L	-
M	-
