

The Value of Pad Print Pro+

Mechanized Automation

The Lincoln Electric Automation Pad Print Pro+™ system synchronizes pre-treatment, artwork application, cure, and inspection. Working within the constraints of an injection molding cycle, the system automates these processes for a wide range of materials to help reduce manufacturing costs. Let's explore the benefits of the Pad Print Pro+ systems!

Guarding removed to show system

Guarding removed to show system

All-in-One Process

Pre-treatment, pad-print, cure and vision inspection are combined, helping save time and increase productivity.

Fast Lead Time

Standard models are pre-engineered to meet typical fabrication needs to quicken shipment lead times.

Synchronizes to Molding Process

Integrates with the injection molding process to help reduce manual handling and increase efficiency.

Vast Capabilities in a Small Footprint

Integrating all required operations in the pad-printing process and inspection and curing without operator involvement helps improve space optimization.

CUSTOMER ASSISTANCE POLICY

The business of Lincoln Electric is manufacturing and selling high quality welding equipment, automated welding systems, consumables, cutting equipment and EV charging systems. Our challenge is to meet the needs of our customers, who are experts in their fields, and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or technical information about their use of our products. Our employees respond to inquiries to the best of their ability based on information and specifications provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment, or to provide engineering advice in relation to a specific situation or application. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or communications. Moreover, the provision of such information or technical information does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or technical information, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose or any other equivalent or similar warranty is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the definition of specifications, and the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.
