

AUTO-MATE[®] 20

A Pre-Configured Cell for Entry Level Robotic Automation

Affordable Turnkey Robotic Solution

- Configured with standard power source, wire feeder, robot and torch
- Optional modular tooling designed to fit a wide array of part geometries
- Control and monitor welding processes for quality and productivity
- Affordable entry level system to easily transition to robotic welding

Quick Implementation

- Built as one piece for easy installation and portability
- Minimal set-up
- Quick delivery

The Right Fit

- Two-zone system for welding small parts
- Light curtain and dual check safety enclosure with fully integrated safety rated devices
- Small footprint saves production floor space

Processes

MIG, Flux-Cored (FCAW-S & FCAW-G)

Input

Applications

- Fabrication Facilities
- Manufacturing Facilities
- Job Shops

What's Included

- ANSI/RIA R15.06-2012 compliant
- Torch Guard software
- CheckPoint™ – cloud-based data collection tool
- 3 Day Training from an AWS certified robotic arc welding instructor

Options*

- Power REAM[®]
- Power Wave[®] Surface Tension Transfer (STT[®]) Module
- Power Wave Advanced Module
- Additional software – Touch Sensing, Thru-Arc Seam Tracking, WeldPRO™
- On-Site installation and programming assistance
- Fume Extraction

*Available options installed by end user

AUTO-MATE 20 - SPECIFICATIONS

Product Number	Work Zones	Part Size Envelope in (mm)	Overall Footprint in (mm)	Part Weight lb (kg)	Overall System Weight in (mm)
AD1564-6	2	36x18 (914x457)	136x76 (3454x1930)	450 (204) per side total including tooling	3700 (1678)

CUSTOMER ASSISTANCE POLICY

The Lincoln Electric Company is manufacturing and selling high quality welding equipment, consumables, and cutting equipment. Our challenge is to meet the needs of our customers and to exceed their expectations. On occasion, purchasers may ask Lincoln Electric for information or advice about their use of our products. Our employees respond to inquiries to the best of their ability based on information provided to them by the customers and the knowledge they may have concerning the application. Our employees, however, are not in a position to verify the information provided or to evaluate the engineering requirements for the particular weldment. Accordingly, Lincoln Electric does not warrant or guarantee or assume any liability with respect to such information or advice. Moreover, the provision of such information or advice does not create, expand, or alter any warranty on our products. Any express or implied warranty that might arise from the information or advice, including any implied warranty of merchantability or any warranty of fitness for any customers' particular purpose is specifically disclaimed.

Lincoln Electric is a responsive manufacturer, but the selection and use of specific products sold by Lincoln Electric is solely within the control of, and remains the sole responsibility of the customer. Many variables beyond the control of Lincoln Electric affect the results obtained in applying these types of fabrication methods and service requirements.

Subject to Change – This information is accurate to the best of our knowledge at the time of printing. Please refer to www.lincolnelectric.com for any updated information.
