

PC45 Plasma Cutter

Lincoln Electric Powercraft[®] PC45 Plasma Cutter [K69044-3]

Eliminate slow grinding and inaccurate oxy-cutting with the Powercraft[®] PC45, engineered to streamline metal fabrication. Operating on standard 240V, this efficient plasma cutter enables instant, high-quality cutting. It delivers a professional, precise, and fast solution for diverse applications, ensuring superior portability in both workshop and site environments.

Easy to read and use interface

Storage Compartment,
great for torch leads and accessories.

Includes:

- » 1 x Powercraft® PC45 Power Source
- » 1 x PC45 Plasma Torch (6 metre)
- » 1 x Ground Cable with Work Clamp (3 metre)
- » 1 x Input Cable with integrated 240V 10A plug
- » Air hose adapter
- » 1 x user manual
- » 1 x shoulder strap

Applications:

- » General Fabrication
- » Site Work
- » Automotive Repair
- » General DIY Projects

Plasma Expendables:

Plasma Expendables
M25454-1

Safety Cap
M25454-2- or M25454-2R (More Suited)

Plasma Cutting Tip (Nozzle)
M25454-3 or M25454-3R

ELECTRODE
M25454-5 or M25454-5R

Optional Accessories:

FR Welding Beanie
K2994-L or XL

Leather Tig Welding Gloves
K2981-S,M,L or XL

Viking Mojo Helmet
K3101-4

Traditional FR Jacket
K2985-L

Features:

- » Lightweight, portable 10A plasma cutter
- » Intelligent protection: over-voltage, low voltage, and over-current
- » IGBT technology for high reliability and cool operation
- » Easy-setup output controls with digital display and fault code readout
- » Plate cutting & grid cutting selection modes
- » Thermal overload protection with indicator
- » 20-second post-flow nozzle cooling
- » Meets AS60974.1/AS60974.10 Australian & International standards

Specifications:

- » Input Power / Supply Plug: 240V / 10A plug
- » Output Range: 15–45A
- » Rated Output (A / Duty Cycle):
45A @ 40% | 27A @ 100% (120V mode)
- » Quality Cutting Thickness: 20mm
- » Maximum Cutting Thickness: 25mm
