HARRIS PORTABLE OXYGEN PANEL FOR EMERGENCY AND FIELD USE

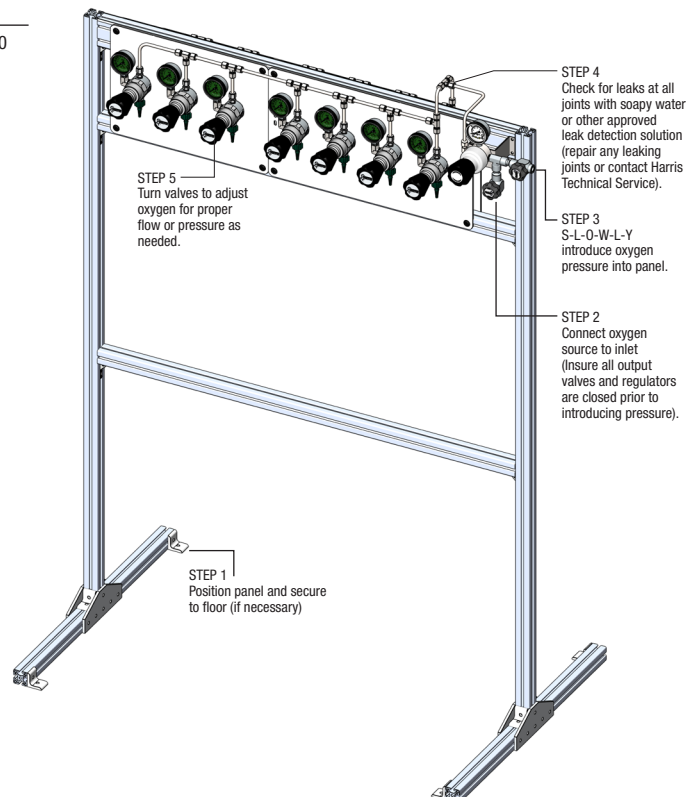

The Harris Portable Oxygen Panel is designed to deliver oxygen for up to 14 patients simultaneously. The panel accepts a pressure input from a centralized piping system, liquid dewar or a high pressure cylinder/bank. Models include both a 15 LPM panel typically used for breathing masks and cannulas or, 50 PSI preset models for respirators and ventilators.

ORDERING NUMBER	GAS SERVICE	MAX INLET	OUTLET	NUMBER OF STATIONS	INLET CONNECTION	OUTLET CONNECTION
