

DO YOU OFFER YOUR WELDERS THE BEST POSSIBLE PROTECTION ?

THE RISKS

FACE & EYES

90% of all workplace eye injuries are preventable with the use of proper safety eyewear, welding goggles and helmets.

Only 1% approximately 770 workers suffering face injuries were wearing face protection.

BODY

Every day, people are admitted to burn centers annually with severe arc flash burns.

HAND AND FOREARM

25% of all work place accidents involved hands and fingers.

LEGS

Risks of clothes catching fire from welding spatter and molten metal.

FEET

Risks are perforations, falling object, burns and slipping.

THE SOLUTIONS

WELDING HELMET & SAFETY GLASSES

Electronic helmet allow the welder to be immediatly and automatically protected during the welding operation. A pair of safety glasses gives additional protection against i.e. grinding particules.

WELDING JACKET

Welding jacket of flame retardant material of leather to protect the upper body, against welding spatters, grinding particules which permit to avoid burns.

WELDING APRON

Welding apron in premium grade, split or grain leather will protect clothes from welding spatters and grinding particules.

GLOVES & SLEEVES

The choice of welding gloves will depend on the welding application in order to offer the right protection and comfort. Sleeves over the jacket offer an additional protection of the arms.

TROUSERS

Trousers of flame retardant material to protect the lower body against welding spatters, grinding particules and molten metal.

SHOES & GAITERS

Combining welding shoes with gaiters permits to protect completely the bottom of the leg.

Weldline by Lincoln Electric, more comfort and safety for welders.
